DETAILED ACTION

Response to Arguments

1. Applicant's arguments, filed 4/1/09, with respect to claims 1-16 have been fully considered and are persuasive. The 112 1st rejection of claims has been withdrawn.
2. Claims 17 and 18 are new.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. The term "about" in claims 3 and 10 is a relative term which renders the claim indefinite. The term "about" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention.

Allowable Subject Matter

5. Claims 1,2,4- 9,11-18 are allowed.

The prior art teaches of attenuating noise of an exhaust line. Regarding claims 1 and 4, the prior art or combination thereof fail to disclose or make obvious which first high-frequency sound wave is inaudible and has a carrier frequency of higher than 50 kHz, and emitting a second high-frequency sound wave from a second transducer into the attenuation zone of the exhaust line, the first and second transducers being configured for generating interference between the first and second sound waves in the attenuation zone, which second sound wave is inaudible and has as its carrier frequency the carrier frequency of the first high-frequency sound wave and contains a low-frequency counter-

noose signal , which is in opposition of phase to the signal representing the noise to be attenuated.

Claims 2,5-9,11-18 are allowed due to dependency on claims 1 and 4.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
